

Hidden Pines Doodles 2 Year Genetic Health Guarantee

All of our puppies get a 15-point health inspection before going to their new home. They are also covered by a 10-day Health Guarantee. Within 10 days of receiving your new puppy, we recommend taking (Him or Her) to a veterinarian for an examination. If the Veterinarian determines that (He or She) is clinically ill or has died from an injury or illness, likely to have been contracted on or before the pickup date, you have the following options.

- Return the puppy for a full refund.
- Return the puppy for a replacement puppy of equal value.
- Retain the puppy, and receive reimbursement for reasonable veterinarian fees not to exceed the purchase price.

These options do not apply where we, the Seller, provide you, the Buyer, with a Health Certificate issued by a licensed Veterinarian. If you agree to everything enclosed in writing at the of sale, you may not later seek to return the puppy.

If your puppy has a Genetic health problem within 2 years of life, & is diagnosed as Genetic by a licensed Veterinarian, we will reimburse you for reasonable Veterinarian fees not to exceed the purchase price of the puppy. However, we will need the Veterinarians name & contact information along with the receipts. You must contact us within 10 days of the diagnosis to seek reimbursement.
